Dividing Licenses are Required

Scuba diving can be enjoyed by many, but be aware that credible operators will only take divers who have Diving Licenses. If you don't have one it may be wise to take a diving course before leaving on your trip or make arrangements for courses prior to your arrival at your destination to avoid disappointment. It is also prudent to inquire about how recent must your diving experience be in order to qualify for any particular diving excursions. It might be wise to take a refresher course if it has been sometime between dives; some trips are only for those who have been diving recently – scuba diving can be dangerous, it is best to be properly prepared and have a safe, pleasurable experience.
